About The Show

Fabrics are the pivot around which the entire garment manufacturing industry gyrates and trims add to the aesthetics meant for functional and commercial requirements. As fashion evolves, the need for variety in every aspect of garmenting increases, and in such a bright scenario, a show like Fabrics & Trims is a much-needed platform for bringing different fabrics, trimmings, embellishments and accessories on one plate. This is crucial for the ever-growing garment manufacturing industry in India and all its stakeholders as they see this show as a place where they can evaluate trends, ideas and innovations and get inspired from exhibits from different parts of the world.

Fabrics & Trims Show, a part of India's 'fastest growing trade show' Gartex Texprocess India, is now all set to be launched at the latter' inaugural edition in Mumbai in March 2021. Owing to the enormous popularity and heightened response generated at Fabrics & Trims Show over the past couple of years in New Delhi, it was evident that this sub-show would do wonders in Mumbai, owing to its proximity to key textile hubs in India.
